italian glass for coverings

Il vetro. Abbiamo cercato soluzioni per rivestimenti, pavimenti e accessori dove la superficie vibrante e mutevole del vetro, solo apparentemente fragile, potesse rivestire un ambiente rendendolo confortevole, pratico ed estremamente originale.

I colori, le finiture e lavorazioni artigianali esclusive hanno contribuito a creare una gamma ampia e adattabile ad ogni tipo di esigenza estetica.

Le pagine che seguono mostrano solo in minima parte cosa è possibile realizzare con i prodotti Vetrocolor. Competenza, professionalità, proposte innovative per colori e formati creano un grande mosaico dove resta da aggiungere la vostra fantasia e creatività.

GLASS, a feeling of fragility is turned into an innovative, strong technique and future oriented, proposal to joint the necessities of the opening markets. Walls, floors, interiors and exteriors are now proposed in original, innovative, elegant and rich solutions where glass express all its own possibilities.

The wide range of colors, finishing and suggestions, all of them hand made, are suitable to complete every aesthetic need.

As usually the only limit to our proposal is the "Fantasy". We now present just a little part of the many possibilities in using our collections, open to any standard or custom necessity.

I LAVABI

Elementi per il bagno coordinati con i rivestimenti
Bath elements coordinated to the panelings.

Oltre alla vasta gamma di colori e finiture per i rivestimenti, ci è sembrato indispensabile proporre elementi lavabo e piani coordinati per creare un ambiente veramente unico.

Besides the wide range of colors and finishings of the panelings, we hold as essential to propose coordinated basins and tops in order to give life to a really unique atmosphere.
