

I CONCI® | BAGNO

I CONCI[®] | BAGNO

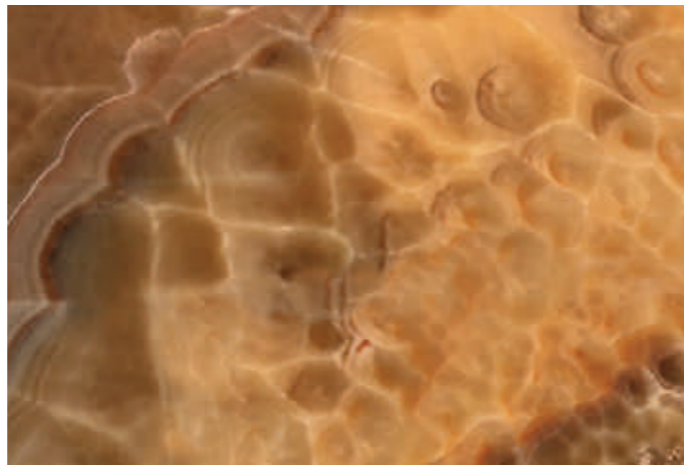

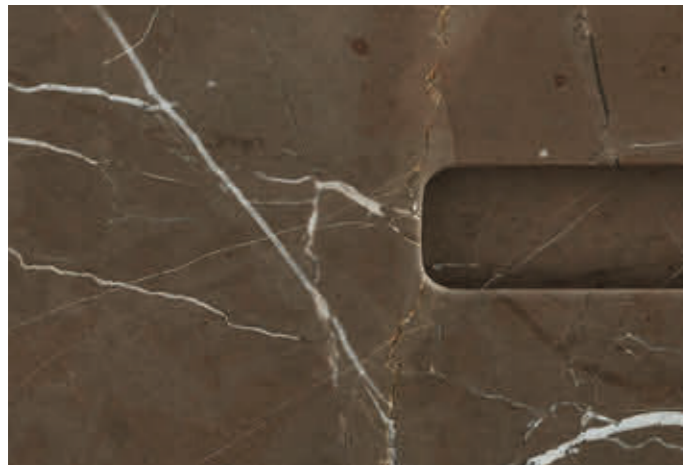

Linee essenziali, calore dei materiali, attenzione al dettaglio e ottimale gestione degli spazi per realizzazioni progettuali su misura.

La Collezione su misura I Conci Bagno esprime equilibrio formale tra estetica, esigenze quotidiane e il desiderio di comodità abitativa e funzionale.

I Conci oggi, con la sua Collezione su misura si riafferma per continuità e design, benessere ed esclusività e qualità esecutive indiscutibili.

Essential design, warm materials, an eye for detail and an excellent use of the space available are the main features of our tailored projects. The Custom Collection I Conci Bagno is a perfect example of formal balance between beauty, daily needs and a desire for comfort and functionality. Thanks to the Custom Collection, I Conci stands out once again for its consistency and excellent design, and for the unquestionable quality and exclusivity of its collections.

materiali

Il marmo è un materiale nobile, ricco e antico che integra in questa collezione le pietre, i laccati e le essenze legno in una ricerca formale destinata ad un design attivo per funzionalità, concretezza e libertà creative.

Nella nostra Collezione su misura, il marmo e le pietre utilizzate, si rivelano per bellezza prestandosi ad essere interpretate, immaginate, esaltate dai progettisti di domani.

Marble is a noble, rich and ancient material. In this collection, marble, stones, lacquered wood and many different kinds of wood join together and give life to extraordinary design items characterized by high functionality, solidity and creative freedom. In our Custom Collection, marble and stones express all their beauty: they are ready to be interpreted, imagined and sublimated by the designers of tomorrow.

artigianalità

Lavoro, esperienza, conoscenza da più di 40 anni. Il marmo conserva la sua inestricabile e primitiva bellezza prestandosi costantemente a nuove tecniche di taglio, incisione, lucidatura e infinite specialità operative.

La Collezione su misura I Conci Bagno custodisce ancora una volta il segreto di una rifinitura, celebra il dettaglio di una curva, perpetua la definizione di un assemblaggio.

Crea così nuove estetiche valorizzando il lavoro semplice, delicato e raro a realizzarsi delle lavorazioni artigianali fatte a mano.

Hard work, knowhow, over 40 years of experience. Our marble keeps its innate and primordial beauty while it is cut, carved and polished using the most advanced techniques.

The Custom Collection by I Conci Bagno treasures once again the secret of a finishing; it celebrates the detail of a curve; it perpetuates the definition of an assembly.

This collection creates new shapes and gives value to the simple, delicate and increasingly rare work that lies behind artisanal manufacturing.

In una goccia
d'acqua si trovano
tutti i segreti
degli oceani. [Khalil Gibran]

In one drop
of water are found
all the secrets
of all the oceans.
